

# List of Accepted Paper

## NCICT-2011

#PaperNo	Paper_Title
6	Identifying Discourse Marker from Rhetorical Relation in Bengali Language
12	Classification of 3D MRI using Mixture Models via Column Sampling
18	PERMUTATION FLOW SHOP SCHEDULING USING MMAS
27	Metaheuristic in Computational Intelligence: A New Way for Optimization and Prediction
34	Linguistic Knowledge Based Supervised Key-phrase Extraction
37	ISOLATED ORIYA DIGIT RECOGNITION USING DTW IN ORIYA SPEECH
42	A Knowledge Sharing Virtual Community for Different Raga Identification of Indian Classical Music
49	Simultaneous Learning for both Clustering and Classification in Multi-objective Framework
65	Index Prediction Using Functional Link Artificial Neural Network
66	Microarray Data Expression Analysis Using Neural Network Based Clustering
1	A CASE STUDY OF SECURITY IN VANETS
14	Intelligent Cloud Brokerage System
23	Performance Improvement using Native SQL Stored Procedures in DB2 on z/OS across a distributed environment
52	Simulation and Analysis of DSDV and AODV for Mobile Ad Hoc Network(MANET) Using NS-2
61	Self Organizing Sensors by Minimization of Cluster Heads Using clustering
5	Performance analysis of OFDM based DAB systems Using BCH-FEC coding technique
21	Monitoring Instrumentation Events & Tracing Message route in Message Oriented Middleware
41	Applying web mining for retrieval and aggregation of product sale promotions for the mutual benefit of buyers and sellers
64	A Neurogenetic Technique for solving Classification Problem
67	Mining Fuzzy Rules for Pattern Classification in Multiobjective Fra
69	Optimal Feature Selection and Penalty for Design of Intrusion Detection System using Genetic Algorithm
71	KPSO: An Evolutionary Approach for Data Clustering
77	Feature Subset Selection Using Particle Swarm Optimization and Neural Network with Structural Learning
9	Establishing Phylogeny and Homology Modelling of Aquaporin Family
10	Predicting an Ayurvedic drug effective in addressing more than one factors contributing towards Atherosclerosis
63	Mining Triclusters in Microarray data
68	Implantable multiband microstrip slot antenna
15	Modeling a Process of Nanoparticle Preparation : A Neuro-Fuzzy Approach
40	Wz-GaN Nanoscale IMPATT Diode For THz Communication
24	Implementing blended learning for technical competency development in IT Industry
46	E-Governance Approach for providing reliable, timely and credible data/ statistics to policy makers in Economical and Statistical Organization
51	The Role of Universities as Green Agents: Achieving Sustainable Development
80	Comparative Analysis of GA and Modified Greedy Algorithms for Test Suite Minimization
